2.01A(3) The NTRP difference between members of an individual doubles team may not exceed 1.0.

See ULR for more information

The Combined levels of play will be used at Sectionals for the USTA Adult 55 & Over and MxD 18 & Over age groups and the SCTA Adult 65 & Over league.

In the Trilevel league, the highest NTRP level offered will play in the #1 doubles line, second highest in the #2 doubles line and lowest level in the #3 doubles line. One player of a doubles team must be at level.

Confirming Match Play: The following must be confirmed 3-4 days prior to the match by both captains:

- Day and time of the team match. Generally two (2) hours is allotted for each match. If there are time restraints, the "Timed" match procedure may be used (see chart).
- Line defaults, if known in advance.
- Number of courts to be used, including for warm-up if available. For split times, captains must agree in the order of play and starting times for each individual match for that day, unless it has been pre-determined by the ALC.
- Directions to the tennis facility.

Restroom facilities must be available for players at their home site in order to participate in USTA/SCTA Leagues.

All league matches must be played on hard courts unless both teams agree to play on a different surface prior to the match.

Recommended order of play for the Adult Division 18 and 40 & Over Age Groups: Singles and then Doubles.

Team matches must be played on the scheduled dates unless it has been pre-approved otherwise by the ALC or rescheduled. The ALC must be informed of any change in the schedule.

Team Line-Ups: Team Captains may: a) Ask for photo IDs. If not available, the player(s) may be replaced. If an eligible substitute is not available, that line(s) may be defaulted and b) Adjust their line-up if a team defaults a line(s) with no prior notification.

Disputed line calls: Since Local League play is un-officiated, teams have asked the captains or two volunteers (one from each team), if available, to stand at each net post. Volunteers only confirm or overrule calls on their side of the court and ONLY if asked by one of the players.

Coaching: No coaching allowed when a match tiebreak is used in lieu of a 3rd set.

Competition Format:

- Local League Playoffs (LLP) requires a two match minimum (a default received counts as a match played) for eligibility.
- In a local league flight structure, any one of the following options will be permitted:
 - 2.01C(1)a** Additional matches, selected randomly, within a flight.
 - 2.01C(1)b** Additional cross-flight matches in which each team in one flight plays an equal number of matches in the other flight, selected randomly if not a full round robin.
 - 2.01C(1)c** The top teams in a flight to play an additional round robin to determine advancement, and the teams without a mathematical chance to advance may play an additional round robin

2.01C(2) Team Match. Each team match in a local league shall consist of such number of individual matches of singles, doubles, or any combination thereof as determined by the local league. Each team must have the minimum number of players available to play the majority of individual matches. If one team does not have the minimum number of players, the opposing team will be credited with winning each individual match. If neither team has the minimum number of players, the match shall be scored as a double team default, and neither team receives credit for a win. In the case of a team default or double team default any individual matches actually played will only count for NTRP ratings and eligibility for advancement and cannot count for determining standings. If both teams have the minimum number of players available, but the combination of individual defaults given by the two teams would result in the majority of matches not being played, the teams must follow the procedure established by the Sectional Association, as required below, to ensure that a majority of individual matches are played.

Each Sectional Association shall establish procedures to determine the 1) flight standings in the event of a team default or double team default and 2) actions to take when the combination of individual defaults given by the two teams in the team match results, or would result, in a situation where the majority of the individual matches are not played. If no such procedures have been established, the match will result in a double team default.

The following procedures will be followed to determine:

1) Flight standings in the event of a Team Default or double team default:

The standings will be adjusted to reflect only actual matches played by the other teams which prevents a team from advancing due to a whole team default. In a multiple round robin format each round robin is considered a separate segment. If the team default took place in the 2nd round robin segment, for example, only those matches will be affected.

The local league may impose further penalties on the defaulting team.

2) Actions to take when the combination of individual defaults given by the two teams in the team match results, or would result, in a situation where the majority of the individual matches are not played: If less than the minimum number of individual lines (less than 3 lines for a 5-line format and less than 2 lines for a 3-line format), were played the team match is invalid. The individual lines that were played will be taken out of the standings but the results will stay in the system for NTRP ratings and eligibility for advancement. If no matches were played, the team will be defaulted unless the other team agrees to reschedule the team match, if there is sufficient time within the league season to do so. The Reschedule Penalty procedure will apply.

Procedure for Individual defaults: Default Time: Players arriving more than 15 minutes for their scheduled match time are subject to a default. Local Areas have the option to use the Point Penalty System.

The least amount of lines should be defaulted and all players available should be utilized. If no prior notice is given, the team that has the most players present and available to play will receive the defaulted lines and may change their line-up. (If a Team refuses to play, they are defaulted)

- 7 players: Default #2 Singles
- 6 players: Default #3 Doubles
- 5 players: Default #2 Singles & # 3 Doubles
- 4 players: Default #2 and #3 Doubles

*5-line format example-1: Team A shows up with only 4 players. Team B has more than 4 players present.
Solution: The match is played. Team B receives defaults on the #2 and #3 doubles lines.*

*5-line format example-2: Team A shows up with only 5 players. Team B has more than 5 players present.
Solution: Play the match. Team B receives defaults on the #2 singles line and #3 doubles line.*

*3-line format example-1: Team A shows up with only 4 players. Team B has more than 4 players present.
Solution: Play the match. Team B receives a default on the #3 doubles line.*

*3-line format example-2: Team A shows up with only one player from the #1 doubles line and the #3 doubles line.
Solution: They would play together at the #1 doubles line. The #2 doubles line would remain the same and the default would occur at the #3 doubles line.*

*3-line format in Trilevel example-1: Team A shows up only having enough players at level to play the #1 and #2 doubles lines. Team B shows up only having enough players at level to play the #2 and #3 doubles lines.
Solution: The team match must be re-scheduled, if there is sufficient time within the league season to do so. Otherwise, it will be*

recorded as a “double default”.

3-line format in Trilevel example-2: Team A shows up only having enough players at level to play the #1 and #3 doubles lines.
Solution: Play the #1 and #3 doubles line and default the #2 doubles line. Any one of the 3 Doubles lines may be defaulted in the Trilevel league.

The following changes will be made if the #1 doubles line is shown as a default after line-ups have been exchanged:

- The #2 line moves up to the #1 line.
- The #3 line moves up to the #2 line.
- The #3 line is defaulted.

The following changes will be made if the #1 singles line is shown as a default after line-ups have been exchanged:

- The #2 line moves up to the #1 line.
- The #2 line is defaulted.

Reschedule Policy: Rescheduled matches may fall under the “No Penalty” or “Penalty rule.

- **No Penalty:** 1) If a minimum of 4 players on the team is representing that Area at a USTA/SCTA league Playoff or Championship; 2) If the Home Facility scheduled an unplanned event and there are no courts available on or off site; 3) Due to Unplayable Conditions; 4) Due to the Heat Rule; 5) Due to a National Holiday
- **Penalty:** The team asking for a re-schedule will default 2 lines (for formats using 5-lines) or 1 line (for formats using 3 lines), whichever applies. The Team that agreed to reschedule shall decide which lines will be forfeited from the following options: a) #1 & #2 Singles; b) #2 Singles & # 3 Doubles; c) #2 & #3 Doubles; d) #3 Doubles(for a 3 doubles format); e) #1 Singles or #2 Doubles(for a 1 singles/2 doubles format)
- **Unplayable Conditions & the Heat Rule:** See www.accuweather.com

- Unplayable Conditions: Conditions that make it impossible to continue playing, which may include, but is not limited to: Rain, Fire, Ash and if a State of Emergency prevents teams from getting to their locations in a timely manner.
- Heat Rule: Air Temperature of 95 degrees & higher.

If there is not a local league regulation in place, the following will apply:

- If the day before the team match Unplayable Conditions or conditions under the Heat Rule are forecasted for the time of the match, it may be rescheduled with no penalties, if there is sufficient time within the league season to do so.
- If the day before the team match. Unplayable Conditions or conditions under the Heat Rule were not forecasted but it becomes unplayable the day of or prior to the start of the match, it may be rescheduled with no penalties. Teams should not wait more than ½ hour past the originally scheduled time, to see if conditions change. *(Both captains may agree to wait longer or choose a different location within their Area to play the match).*
 - If Unplayable Conditions exist after the team match has started and it is unable to be rescheduled, enter any individual lines not completed as a Timed Match.
 - If the heat reaches 95 degrees or higher after a team match has started, the team match **should** be played to completion unless both captains agree to reschedule any individual lines players might be unable to finish. If both captains do not agree to reschedule the team match (which should be agreed on prior to the start of the match) or if the rescheduled team match could not be completed by the end of the local league season, the following steps will be followed:
 - A retirement will be recorded for any player(s) who were unable to complete their individual match. The win will go to their opponents.
 - A retirement will be recorded if all players were unable to complete their individual match. The win will go to the team that was ahead.
 - If it's a “Tie”, the individual match will be recorded as a Timed Match. TennisLink automatically grants the win to the visiting team.

ALC’s may confirm “Unplayable Conditions and the Heat Rule” if there are any questions or disputes

A rescheduled date must be agreed upon within one week from the match date and played before the end of the local league season or before the flight playoff (whichever comes first).

- If the team match had not started, a different line-up may be used. If the teams cannot agree to a reschedule date and time, it will be entered as a Double Default.
- If the match started, completed individual matches will stand as played and incomplete matches will need to resume with the same players and at the exact score (set, game, point) as they stood when halted. Any point played is always counted and never replayed.

Local Areas may impose further sanctions or penalties

When a league season cannot be completed, the local league champion will be determined by the ALC in consultation with the SLC. Factors to be considered may include, but are not limited to: Length of schedule; Number of matches completed; Head to Head results of teams in contention; Highest percentage of wins.

Local Areas have the option to use either 2 out of 3 sets or a Match Tiebreak in lieu of a third set.

SCTA will implement ULR 2.03H procedures in the event of a Tie at the local level. (See ULR for complete details at www.socaladulttennis.com)

NTRP Dynamic Disqualification and Review Procedures.

(For complete details, see (ULR) at www.socaladulttennis.com)

SCTA will run dynamic ratings during USTA league seasons: Adult 18, 40, and 55 and Over. Self-rated players or players with appealed ratings are subject to dynamic disqualification.

Local level: Players who meet the criteria for NTRP Dynamic Disqualification will be immediately promoted to a higher NTRP level. Matches played will stand.

Championship level: SCTA will run dynamic calculations following the conclusion of the championship and disqualify those players who meet the criteria for NTRP Dynamic Disqualification. Matches played will stand. (See Nat Reg 2.04E(2) for championship scoring procedures when NTRP Dynamic Disqualifications are done following the conclusion of championship competition.)

They must self-rate if their NTRP rating is older than 2 years. *Exception: A player who receives a published (M) or (T) rating and chooses to participate in the Adult Division will be required to self-rate even if the (M) or (T) rating is less than 2 years old. X indicates the years of valid computer rating in TennisLink for play in 2018.

TennisLink will automatically remove expired computer and self-ratings thereby allowing individuals to self-rate. Players with expired ratings will not be allowed to self-rate at a lower level than their last valid NTRP rating. However, they will have the opportunity to file a self-rate appeal of the NTRP rating level assigned.			
Computer ratings are valid based on the above table.			
Self-ratings are valid for 2 years from the date issued or until replaced by a dynamic or computer rating.			

Ratings are directly affected by: a) Your partner; b) Your opponent's dynamic rating; c) Your current dynamic rating; d) The closeness of the match (regardless of whether it was a win or a loss).

Ratings are not directly affected by: a) What position you play; b) Your wins and losses; c) Team standings; d) Age

For championships starting after Year-End Ratings are generated, contact the SCTA Adult Department.

The NTRP Coordinator will be responsible for all NTRP issues and the management of the Automated Appeal Process. The Automated Appeal instructions are located at: www.socaladulthoodtennis.com – Leagues – NTRP ratings.

Year-End Rating Appeal Period: Appeals submitted after registration will be reviewed for future play, not for the season they are currently playing in.

Medical Appeal Period: All year. Medical Appeals require an Appeal Form which may be downloaded from the scta website. The Appeal must include Pertinent information & documentation that determines the degree to which the injury or debilitating condition is temporary or permanent.

MOVE-UP/APLIT-UP:

2.06A(1): Move-Up - Teams and team members that advanced to, or qualified for, any National Championship may play together as a team, in whole or in part, if they move up one NTRP team level.

2.06A(2): Split-Up - No more than three (3) players who were on the roster of any team that advanced to, or qualified for, any National Championship team the previous year may play together in the same Division, same Age Group and at the same NTRP team level as the National Championship team(s), if their NTRP rating allows. Split-Up requirements only apply to players who participated in three (3) or more matches (including one default) for that team during the championship year.

2.06A(3): If a Section has a regulation that limits the number of players on a roster that are at a specific level, the Section must suspend that regulation for one year for any team that advanced to, or qualified for, any National Championship the previous year and chooses to move up one NTRP team level.

2.06B Section Options for Move-Up/Split-Up.

2.06B(1) All Championships Below Nationals. Sections shall have the right to decide whether a team who competes at any championship level below the National Championships must move-up or disperse to form new teams for the following championship year and under what conditions.

2.06B(2) Sections shall have the option to restrict crossover between Adult and Mixed Divisions and/or between some or all Age Groups notwithstanding Section 2.06A.

SCTA will not restrict crossover between Adult and Mixed Divisions and between age groups.

Players who are in violation will be disqualified from the last team on which they registered on as well as any matches played. If no matches were played and no defaults were received, the player can choose which team to be deleted from.

SCTA will suspend the "50% at level" rule for one year for any team and team members that advanced to, or qualified for, any National Championship the previous year and choose to move up one NTRP team level as a team, in whole or in part. Example: If two 4.0 players from the previous years Adult 18&Over National team want to play together on a 4.5 Adult 40 & Over team along with Non-National 4.0 players, the team is not subject to the "50% at level" rule.

The following procedure will be followed as soon as it is discovered that a team is not in compliance: If all players have played a match, the player with the latest registration dates that are out of compliance, will be disqualified from the team and matches played shall be considered 6-0, 6-0 losses and wins for the opposing player or doubles team. Players that have not played a match or received a default can choose to be taken off the team in order to get the team into compliance.

The Move-up/Split-up regulation applies to all USTA Sectional Winners and any other team(s) that qualify to advance to a National Championship. It does not apply SCTA Leagues: SCTA Doubles, Trilevel and Adult 65&Over.

- 1) If the score is Equal, play a One Point Tie-Break to determine the Match Winner.
- 2) If the score is not Equal, the team ahead by at least one point is the Match Winner.

Example: Team A wins first set 7-6. Team B wins second set 6-7. Whoever wins the Match Tie-Break is the Match Winner.

3rd Set Match Tiebreak not started: Count the Total # of games won:

- 1) The team with the Highest # of Games Won is the Match Winner.
- 2) If it's a Tie (for example: 7-6, 6-7), play a One Point Tie-Break to determine the Match Winner.

Any local league match that will go beyond the allotted time with no additional time to finish, must use the Timed Match Procedure . (See SLR - "Confirming Match Play").

At 5 minutes before the allotted time runs out, no new game will begin. All games "in play" are completed.

A game is "in play" once the server has struck the first ball.

Enter the score exactly as it finished, choose "Timed Match" and designate a Winning Team (See Examples below)

***A One Point TB score is not entered *A Match TB score is entered as 1-0 *All Set TB scores are entered as 7-6 or 6-7**

2nd Set Incomplete

- 1) The team that is ahead 4-0, 4-1, 5-0, 5-1 is the 2nd Set winner.
- 2) If the total # of games played in the Set is six or more and one team is ahead by two games, they are the 2nd Set Winner.
- 3) If the total # of games played in the Set is not six or more, it is an invalid 2nd Set and the team that won the First Set Wins the Match.

Example: Team A wins first set 7-6 and Team B wins second set 2-4. They Split Sets. Team B is the Winner with 10 total games won.

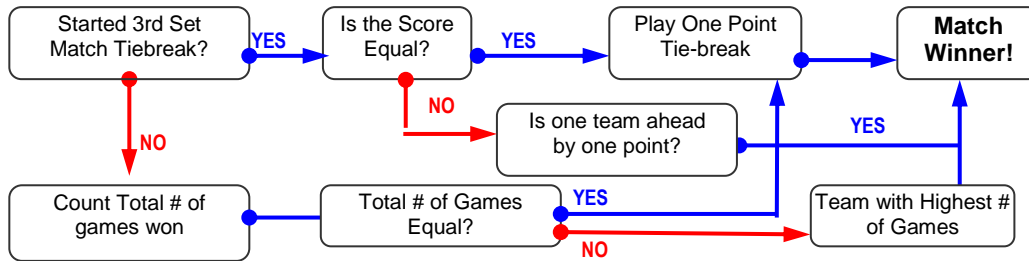

Example: Team A wins first set 7-6 and wins second set 4-2. Team A is the Winner, they are ahead by at least 2 games..

Example: Team A wins first set 7-6 and the second set is 3-3. Team A is the Winner, the 2nd set is invalid.

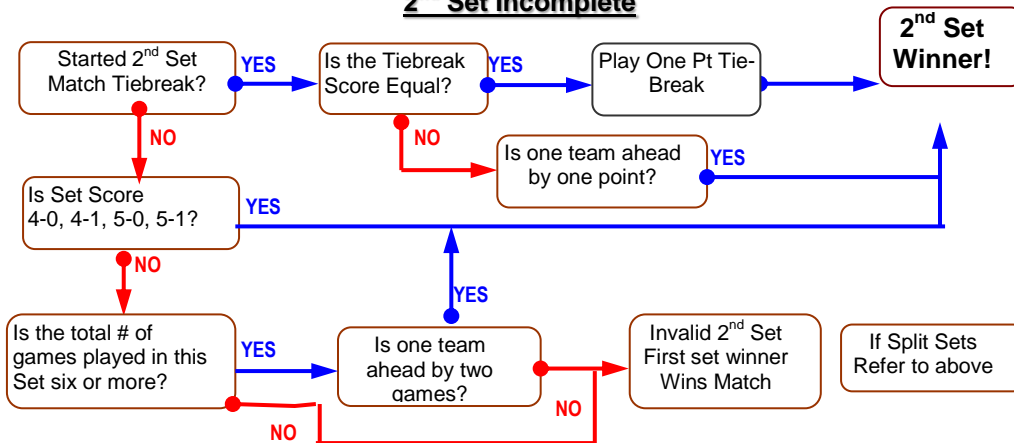

Example: Team A wins first set 7-6 and the second set is 1-2. Team A is the Winner, the 2nd set is invalid.
